## Medical Treatment for "School diseases" by Using Medical Assistance Card issued by the Board of Education

Please read the following instructions before using the Medical Assistance Card from the Board of Education.

- 1. Documents required at a hospital and medical institution for the treatment.
  - \* Medical Assistance Card
  - \* Letter request to medical institutions regarding "Treatment of school diseases for the students qualified for municipal nursing support or semi-support".
  - \* Health Insurance Card (Students with the health insurance should always bring the insurance card when they take treatment.)
- 2. Coverage for Medical Treatment
- \* For students under municipal-supported nursing care

If you are not with the health insurance, the medical assistance card will cover all the medical cost.

If you are with the health insurance, the card will cover 30% of the total expenses and you don't have to pay any at the (hospital) counter.

\* For students under semi-supported nursing care

If you have the health insurance, you don't have to pay 30% of the treatment cost at the hospital counter as the medical card covers the amount. (However, some medical institutions ask for payment at the time of your visit and refund you the amount afterward.)

If you don't have the health insurance, you have to pay 70% of the total expenses at the counter (it should be parents' or guardians' responsibility.), while the remaining 30% will be covered by the medical card.

- 3. School Diseases Covered by the Medical Card (This card is available only for the following diseases and treatment, but not for other illness.)
  - \* Dental caries
  - \* Conjunctivitis or trachoma
  - \* Otitis media, sinusitis or adenoids
  - \* Impetigo, scabies or ringworm
  - \* Parasites
  - 4. Others
  - \* The medical assistance card from the board of education should be used prior to any other insurances for the treatment of school diseases. Meanwhile, the medical assistance cards from the life support center or Medical Aid for Fatherless or Motherless Families are available for any treatments not related to school diseases or other treatments of school diseases which are not allowed under the medical scheme of the board of education.
  - \* Please ask the medical institution to renew the records on the card every month and submit it to the school in time.
  - \* In case that you fail to use the card for some reason, please return it to the school.
